

## Vent/Flame Arrestor Model 351S

### Description

Used in conjunction with a "normal" vent on above-ground storagetanks. Open (non-pressure type) flame arrester to help prevent the transmission of heat and/or an ignition source into the tank.

Model 351S is a 2" NPT and weighs 14,1 Kg.

### Construction

- Body: Cast Iron
- Cover: Cast Iron
- Cap: Brass
- Arrestor Plates: Stainless Steel
